INDEPENDENT AUDITORS' REPORT

The Board of Education of State of Rhode Island and Providence Plantations Providence, Rhode Island

Report on the Financial Statements

We have audited the accompanying financial statements of the University of Rhode Island (a component unit of the State of Rhode Island and Providence Plantations) (the "University"), which comprise the statement of net position for the year ended June 30, 2019, the related statements of revenues and expenses and change in net position and cash flows for the year then ended, and the related notes to the financial statements, which collectively comprise the University's basic financial statements as listed in the table of contents. We also performed the audit of the Alumni Association of the University Rhode Island's financial statements, a component unit of the University, as of and for the year ended June 30, 2019.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the University of Rhode Island Foundation, Inc. (the "Foundation") or the University of Rhode Island Research Foundation, Inc. (the "Research Foundation") as of June 30, 2019. These financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinion, insofar as it relates to the amounts included for the entities not audited by us included in the discretely presented component units of the University, is based solely upon the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the financial position of the University of Rhode Island as of June 30, 2019, and the respective changes in net position and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4-27, the schedule of the University's proportionate share of the net pension liability on page 82, the schedule of the University's contributions - pension on page 83, notes to the required supplementary information - pension on page 84-85, the schedule of the University's proportionate share of the net OPEB liability on page 86, the schedule of the University's contributions - OPEB on page 87 and the notes to the required supplementary information - OPEB on page 88 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the University's basic financial statements. The accompanying schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is presented for purposes of additional analysis, and it is not a required part of the financial statements. The schedule of expenditures of federal awards is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects, in relation to the financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 30, 2019, on our consideration of University of Rhode Island's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the University of Rhode Island's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering University of Rhode Island's internal control over financial control over financial reporting and compliance and compliance.

Management's Discussion and Analysis (Unaudited)

June 30, 2019

Introduction

The following management's discussion and analysis ("MD&A") provides management's view of the financial position of the University of Rhode Island ("the University") as of June 30, 2019 and the results of operations for the year then ended, with selected comparative information for the year ended June 30, 2018. The purpose of the MD&A is to assist readers in understanding the accompanying financial statements by providing an objective and understandable analysis of the University's financial activities based on currently known facts, decisions, and conditions. This analysis has been prepared by management, which is responsible for the completeness and fairness of the information contained therein. The MD&A consists of highly summarized information, and it should be read in conjunction with the University's financial statements and notes thereto that follow this section.

The University is the only publicly supported research institution in the State of Rhode Island ("the State") and is charged with providing state residents an opportunity for undergraduate and graduate studies at a Land Grant, Urban Grant and Sea Grant research university. As such, the University receives federal funding for land and sea research. The University had its beginning as the State Agricultural School chartered in 1888. The Morrill Act of 1862 provided the framework within which the school became the State's land-grant institution, and in 1892 the school became the Rhode Island College of Agriculture and Mechanic Arts. In 1909, the name of the University was changed to Rhode Island State College, and the program of study was revised and expanded. In 1951, the University became known as the University of Rhode Island by an act of the State's General Assembly. The Board of Governors for Higher Education became the governing body for the University in 1981.

The Rhode Island General Assembly established the Rhode Island Board of Education ("BOE") effective January 1, 2013, to oversee the elementary, secondary, and postsecondary education for the state. In June 2014, the Rhode Island General Assembly approved the reorganization of the entire Rhode Island system of public education.

The legislation enlarged the BOE to seventeen (17) members in order for the BOE to populate two Councils: Council for Elementary and Secondary Education and the Council for Post-Secondary Education. Each of the two councils is responsible for the significant portion of the governance and regulation per RIGL Section 16-60-1 and 16-60-4 for Elementary/Secondary and per RIGL Section 16-59-1 and 16-59-4 for Post-Secondary.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Introduction – Continued

The mission of the full BOE is to provide long-range planning and coordination and evaluation of policies and programs for the public education systems of the State and specifically:

- To develop and adopt educational, financial and operational goals for the education systems of the State that represent achievable benchmarks for a 10-year and 20-year time to be implemented by the two Councils and the commissioners.
- To ensure that the education systems of the State are aligned with the projected opportunities in workforce development and economic development and that the education systems are preparing students to participate in the future workforce of the State.
- To coordinate programs and courses of study and promote collaboration between and among pre-kindergarten through higher education institutions and agencies.
- To present strategic budget and finance recommendations to the council on elementary and secondary education and council on postsecondary education that are aligned with the long-range goals adopted by the BOE.

Effective February 1, 2020, the University of Rhode Island will no longer be governed by the Rhode Island Council on Postsecondary Education but will be governed by a Board of Trustees consisting of 17 members appointed by the governor with the advice and consent of the Rhode Island Senate. The board will be dedicated solely to the University and will exercise similar powers and authority as was exercised by the council on postsecondary education including oversight of employment, and the University's property, purchases and procurement. The University president will report to the Board of Trustees.

The Rhode Island Council on Postsecondary Education will continue to oversee Rhode Island College and the Community College of Rhode Island.

The mission of the University is to be committed to enriching the lives of its students through its land, sea and urban grant traditions. Students, faculty, staff and alumni are united in one common purpose; to learn and lead together. The University values (1) creativity and scholarship (2) diversity, fairness and respect, (3) engaged learning and civic involvement, and (4) intellectual and ethical leadership. The University's Transformation Goals for the 21st Century are: (1) create a 21st century 24/7 learning environment, (2) increase the magnitude, prominence, and impact of research, scholarship and creative work, (3) internationalize and globalize the University, and (4) build a community at the University that values and embraces equity and diversity.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Introduction – Continued

The University has a combined enrollment of 17,974 students and offers undergraduate and graduate degree programs through the doctoral level. The University has over 100 majors in seven degree - granting colleges. Its main campus is located in Kingston, Rhode Island, 30 miles south of Providence in the northeastern metropolitan corridor between New York and Boston. In addition to the Kingston Campus, the University has three other campuses - the 165-acre Narragansett Bay Campus, which is the site of the Graduate School of Oceanography; the Alan Shawn Feinstein College of Education and Professional Studies located in downtown Providence; and the W. Alton Jones Campus located in the western section of the State, 20 miles from Kingston. The 2,300 acres of woods, fields, streams and ponds of W. Alton Jones Campus is the site of the environmental education research programs and contains conference facilities for both public and private use.

Financial Highlights

The University's financial position for the fiscal year ended June 30, 2019 shows a decrease in net position before capital appropriations and gifts of \$393.4 thousand, compared to a decrease of \$8.41 million in fiscal year 2018. Operating revenues increased by \$9.45 million or 2.15% and operating expenses increased by \$5.30 million or 1.00%.

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Financial Highlights – Continued

The following chart displays the components of the University's net position for the fiscal years ended June 30, 2019 and 2018.

On June 30, 2019 and 2018, the University's total assets of \$1.12 billion, and \$999.70 million, and deferred outflows of resources of \$36.86 million, and \$40.60 million exceeded its total liabilities of \$606.69 million and \$572.17 million and deferred inflows of resources of \$11.59 million and \$10.41 million resulting in net position of \$543.31 million, and \$457.72 million, respectively. The resulting net position is summarized in the following categories (dollars in millions):

	_	2019	2018
Net Investment in Capital Assets	\$	566.23	490.85
Restricted expendable		3.31	4.08
Unrestricted		(26.23)	(37.21)
Total net position	\$ _	543.31	457.72

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Financial Highlights – Continued

The following chart provides a graphical breakdown of total revenues by category for the fiscal years ending June 30, 2019 and 2018.

Overview of the Financial Statements

The University's financial statements have two primary components: 1) the financial statements and 2) the notes to the financial statements. Additionally, the financial statements focus on the University as a whole, rather than upon individual funds or activities.

The University of Rhode Island Foundation ("the Foundation"), the University of Rhode Island Alumni Association ("the Alumni Association"), and the University of Rhode Island Research Foundation (the "Research Foundation") are legally separate tax-exempt component units of the University.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Overview of the Financial Statements – Continued

The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the University in support of its programs. The Alumni Association informs and engages current and future alumni as committed partners of the University, its mission and traditions. The Boards of the Foundation and the Alumni Association are self-perpetuating and primarily consist of graduates and friends of the University. Although the University does not control the timing or the amount of receipts from the Foundation and the Alumni Association are restricted to the activities of the University by the donors. Because these resources held by the Foundation and the Alumni Association are restricted to the Alumni Association can only be used by or are for the benefit of the University, the Foundation and the Alumni Association are considered component units of the University and are discretely presented in the University's financial statements.

The Alumni Association merged with the Foundation subsequent to the period ending June 30, 2019. The boards of both entities approved the merger unanimously on June 5, 2019 and June 7, 2019, respectively, and these votes were later ratified by the University Alumni and Foundation Trustees prior to the effective date of July 1, 2019. The Foundation is the surviving entity as part of the merger, and changed its name to "The University of Rhode Island Foundation & Alumni Engagement" to better reflect the combined activities of the new organization.

The Research Foundation's mission is to promote industry and University collaboration and new technology ventures for economic growth and job creation. The Research Foundation's unique private, nonprofit status allows it to support a broad range of investments and intellectual property protection. The Research Foundation is affiliated with the University by common management; however, each organization has its own independent board of trustees/directors. The Research Foundation obtains significant managerial and financial support from the University, including the salaries for the University Associate Vice-President for Intellectual Property and Economic Development, who also serves as the Executive Director of the Research Foundation, other support staff and the provision of operational cost. Because of the relationship, the Research Foundation is considered a component unit of the University and is discretely presented in the University's financial statements.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Overview of the Financial Statements – Continued

Management's Discussion and Analysis is required to focus on the University, and not on its component units.

The Financial Statements

The financial statements are designed to provide readers with a broad overview of the University's finances and are comprised of three basic statements.

The *Statements of Net Position* presents information on all of the University's assets, deferred outflows of resources, liabilities, and the deferred inflows of resources, along with the resulting net financial position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the University is improving or deteriorating.

The *Statements of Revenues and Expenses and Changes in Net Position* presents information showing how the University's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows only in future fiscal periods (e.g. the payment for accrued compensated absences, or the receipt of amounts due from students and others for services rendered).

The *Statements of Cash Flows* is reported on the direct method. The direct method of cash flow reporting portrays net cash flows from operations as major classes of operating receipts (e.g. tuition and fees) and disbursements (e.g. cash paid to employees for services).

The financial statements can be found on pages 28 to 31 of this report.

The University reports its operations as a business-type activity using the economic measurement focus and full accrual basis of accounting. As a component unit of the State of Rhode Island and Providence Plantations, the results of the University's operations, its net position and cash flows are also summarized in the State's Comprehensive Annual Financial Report derived from its government-wide financial statements.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. They also provide information regarding both the accounting policies and procedures the University has adopted as well as additional detail of certain amounts contained in the financial statements. The notes to the financial statements can be found on pages 32 to 81 of this report.

Financial Analysis

As mentioned earlier, net position may serve over time as a useful indicator of the University's financial position. In the case of the University, total assets and deferred outflows of resources exceeded total liabilities and deferred inflows of resources by \$543.31 million and \$457.72 million at the close of fiscal years 2019 and 2018.

The University's condensed statement of net position is presented below (dollars in millions).

	_	2019	2018
Current assets	\$	196.35	177.34
Noncurrent assets	_	928.38	822.36
Total assets	_	1,124.73	999.70
Deferred outflows of resources	_	36.86	40.60
Total assets and deferred outflows of resources	\$	1,161.59	1,040.30
Current liabilities	\$	89.19	66.93
Noncurrent liabilities		517.50	505.24
Total liabilities	_	606.69	572.17
Deferred inflows of resources	_	11.59	10.41
Total liabilities and deferred inflows of resources	\$	618.28	582.58
Net position:	-		
Net investment in capital assets	\$	566.23	490.85

Total net position	\$	543.31	457.72

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Financial Analysis - Continued

By far the largest portion of the University's net position, \$566.23 million and \$490.85 million, as of June 30, 2019 and 2018, reflects its investment in capital assets (such as land, buildings, machinery, and equipment), net of any related outstanding debts used to acquire, construct, improve, or rehabilitate those assets. This represents approximately 104% for fiscal year 2019 and 107% for fiscal year 2018 net position. The University uses these capital assets to provide services to students, faculty and administration; consequently, these assets are not available for future spending. Although the University's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate the related debt. Financing for certain capital projects is also provided by the issuance of revenue bonds by the Rhode Island Health and Educational Building Corporation, a quasi-public state agency. In addition to the debts noted above, which are reflected in the University's financial statements, the State regularly provides financing for certain capital projects through the issuance of general obligation bonds and capital appropriations from the Rhode Island Capital Plan Fund. Borrowings by the State are not reflected in these financial statements.

The restricted expendable net position consists of resources that are subject to external restrictions on how they must be used, and they represent approximately 0.6% and 0.9% of the University's net position at June 30, 2019 and 2018, respectively.

Net position that are not subject to restrictions imposed by creditors, grantors, contributors, laws, regulations or enabling legislation are classified as unrestricted net position. As of June 30, 2019 and 2018, the University's unrestricted net position represent (4.8%) and (8.1%) of the net position, respectively. At year end, this net position is designated or committed for goods and services that have not yet been received, working capital for auxiliary enterprise and departmental activities, payment of annual debt service, capital improvements, equipment replacement, scholarships and new faculty startup costs, including lab renovation and matching funds.

The University's current assets include cash and equivalents, cash held by the State Treasurer, accounts receivable, inventories, and prepayments, while current liabilities consist of accounts payable and accrued expenses, unearned revenues, funds held for others, and the current portion of compensated absences and current portion of long-term debts. Compensated absences represent accumulated vacation, sick leave and deferred compensation that will be used or paid in future years. The current ratio (current assets divided by current liabilities), which measures the University's liquidity, remains positive: 2.20 to 1 and 2.65 to 1 as of June 30, 2019 and 2018, respectively.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Financial Analysis - Continued

One of the components of the University's noncurrent assets are the funds on deposit with the bond trustee totaling \$76.56 million and \$103.34 million as of June 30, 2019 and 2018. The majority of the bond proceeds were from the 2009 B Bonds for \$9.38 million for fire protection, 2016 A Bonds for \$5.18 million for design, construction, renovation improvement and equipping of certain utility systems and other infrastructure, 2017 A Bonds for \$36.37 million for design and construction of a new student residence building located west of White Horn Brook, 2017 C Bonds for \$1.71 million for the site-enabling, utility and hardscape relating to the new student residence structure, 2018 A for \$16.40 for utility upgrades and repaving and reconstruction of parking facilities and internal roadways, and 2018 B for \$2.35 for upgraded fire alarm and sprinkler systems in the University's auxiliary enterprise buildings.

During fiscal year 2019, the University's net position increased by \$85.59 million due, in large part, to capital appropriations for the new engineering building phase 1 of \$54.3 million and Bliss Hall phase 2 of \$14.5 million and RICAP funds to rehab the Fine Art Center of \$2.8 million.

Operating Revenues

The total operating revenues increased by \$9.46 million or 2.15 % in fiscal year 2019, compared to an increase of \$16.64 million or 3.93% in fiscal year 2018. There was an increase in tuition from 2018 to 2019, this increase was 2.0% for in-state students and 2.5% for out of state students. There was also a slight change in the mix of in-state and out of state students, in-state students went from 54.9% in 2018 to 53.9% in 2019 and out of state students went from 38.4% in 2018 to 39.6% in 2019, international and regional students stayed about the same percentage.

Tuition and fees received by the University included the following (dollars in millions):

	2019	2018
Tuition	\$ 311.11	303.72
Student service fees	21.89	22.10
Health service fees	7.27	7.35
Housing fees	41.15	41.74
Dining service fees	18.96	20.65
Miscellaneous student fees	2.84	3.37
Total	403.22	398.93
Tuition waived or remitted	(111.55)	(108.06)

June 30, 2019

Grant and Contract Revenue

The recognition of revenue from grants and contracts is deferred until services have been performed to fulfill the requirements of the grants and contracts. Hence, awards received are not reflected in the statement of revenues and expenses and changes in net position.

The bar chart below shows the amount of grants awarded (not necessarily recognized as revenue) to the University during the last ten years, from a total of \$82.6 million in 2009 to \$93.8 million in 2019 or an 16.9% increase. The spike in fiscal year 2010, related to awards from American Reinvestment and Recovery Act ("ARRA"). The decrease in fiscal year 2014 relates to the federal sequestration and the loss of ARRA funding.

Nonoperating Revenues and Expenses

The State's unrestricted appropriation is the largest component of the University's nonoperating revenues. The amount requested for fiscal year 2019 was \$82.98 million. However, the amount appropriated by the State was \$80.97 million resulting in an appropriation for fiscal year 2019 that was \$2.01 million less than the amount requested.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Nonoperating Revenues and Expenses - Continued

The University has a long tradition of using the state appropriation to support its operating expenses. During fiscal years 2019 and 2018, the University received state appropriations of \$80.97 million and \$78.33 million, which combined with operating revenue, was not sufficient to cover operating expenses in excess of \$6.43 million in fiscal year 2019 and \$13.22 million in fiscal year 2018. The University has seen an increase in the state appropriation over the past few years, and it is slightly above what was received over ten years ago by approximately \$5 million. The student tuition and fees have played an increasingly important role in funding of the University's operations, however, does not fully cover operating losses by \$6.43 million in fiscal year 2019 and \$13.22 million in fiscal year 2019. A summary of net income after state appropriation is presented below (dollars in millions).

	_	2019	2018
Net student fees	\$	291.67	290.87
Other operating revenue		157.82	149.16
Operating expenses	_	(536.89)	(531.58)
Operating loss		(87.40)	(91.55)
State direct appropriations	_	80.97	78.33
Net loss after state appropriation	\$ _	(6.43)	(13.22)

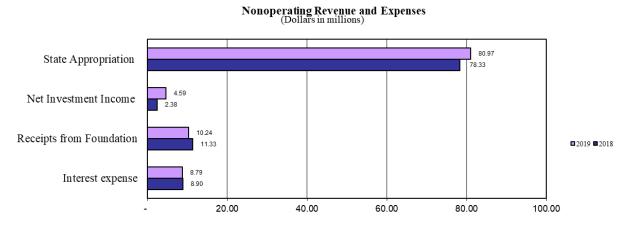

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Nonoperating Revenues and Expenses - Continued

The following chart provides a graphical breakdown of the University's nonoperating revenues and expenses.

Capital Assets and Debt Administration

<u>Capital Plan</u>

The University generally has funded its capital plans through a combination of funds received from University operations, bonds issued by the Rhode Island Health and Educational Building Corporation, state appropriations, general obligation bonds, federal appropriations, and private fund raising. The execution of the University's capital improvement plan is contingent upon approval from the State and sufficient funding.

The BOE submits a running five-fiscal-year capital improvement plan to the General Assembly and State Executive each year. The plan for the proposed capital projects for the entire system of public higher education in Rhode Island includes the University. The plan for the period fiscal year 2019-2023 for the University totals \$840.8 million, and it includes all continuing and planned projects, whether funded or not. This plan forms the basis for discussions on funding the various projects from all available funding sources.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Capital Assets and Debt Administration - Continued

Capital Assets

The University's investment in capital assets as of June 30, 2019 and 2018 net of accumulated depreciation, amounts to \$837.43 million and \$707.82 million, respectively. This investment in capital assets includes land, buildings (including improvements), and furnishings and equipment (including capital leases). Capital assets increased during fiscal year 2019 year by \$129.61 million and by \$42.39 million in fiscal year 2018. Legal title to all land and real estate assets is vested in the BOE or the State. A summary of net capital asset balances as of June 30, 2019 and 2018 is presented below (dollars in millions).

	 2019	2018
Land and improvements	\$ 39.25	36.27
Major capital additions to building and improvements	536.42	549.32
Furnishings and equipment	29.37	28.81
Construction in progress	 232.39	93.42
Total	\$ 837.43	707.82

Major capital additions in fiscal year 2019 included the new engineering building (\$56.0 million) and renovation of Bliss Hall (\$14.8 million) in construction in progress. This renovation will replace antiquated and worn out academic buildings. The new construction will provide specialty lab space and new teaching spaces to serve the needs of the University's 21st century Engineering Program. Also included in construction in progress is the new apartment style student residence hall (\$53.8 million) adding an additional 500 beds as well as the Utility Upgrades (\$8.6million), Fine Arts (\$2.8 million) and Meade Stadium (\$2.5 million).

Additional information about the University's capital assets can be found in Note 5 to the financial statements.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Capital Assets and Debt Administration - Continued

<u>Debt</u>

As of June 30, 2019 and 2018 the University had \$329.52 million and \$313.52 million, respectively, in outstanding debt, an increase of \$16.00 million in 2019 and \$75.47 million in 2018. The table below summarizes the types of debt instruments (dollars in millions).

	_	2019	2018
Loans payable	\$	0.52	0.76
Capital lease obligations		0.30	2.41
Due to Primary Government		24.94	16.79
Revenue bonds	_	303.76	293.56
Total	\$_	329.52	313.52

The University has no independent bonding authority. All revenue bonds must be approved by and arranged through the Rhode Island Health and Education Building Corporation. Debt related to revenue bonds is reported on the University's financial statements. Debt related to general obligations bonds is reflected on the State's financial statements. As of June 30, 2019, the University's general revenue bonds are rated by Moody's as A1 and Standard and Poor's rating services have given rates of A+.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Economic Factors that Will Affect the Future

The University is a tuition-dependent institution; thus serious attention to strategic enrollment management is a critical element of the University's financial stability and self-sufficiency. Over the past 7 years, the University has experienced strong/record enrollments or near/record enrollment. There has also been strong interest in the University as evidenced by the record number of applications. Recognizing the increased competition for students, the University has expanded its recruitment to include growth areas throughout the country - for example, in the Mid-Atlantic and Northern Virginia. Furthermore, our in-state and out-state tuition rates are among the lowest for both in-state and out-state New England competitors.

The University is sensitive to rising costs of higher education and strives to continue to achieve efficiencies to limit the size of tuition and fee increases. The University and Board of Education approved an increase in tuition from 2018 to 2019 of 2.0% for in-state students and 2.5% for out of state students.

To support strategic priorities and continue record enrollment the University continues to enhance its faculty and facilities to meet demand and offer a world-class education.

- Since 2010 the University has hired approximately 346 new full-time faculty which has triggered the renewal of the intellectual foundation of the institution.
- In 2014, a \$125 million bond referendum passed to build a new 186,000 square foot engineering building. This will replace five existing engineering buildings on the Kingstown campus which were all opened in the late 1950's and early 1960's. In 2016 an additional \$25.5 million was approved for Phase II of the College of Engineering building construction to renovate and expand Bliss Hall. The new engineering building, named The Fascitelli Center for Advanced Engineering, opened for classes in Fall 2019. Bliss Hall is expected to open in late Fall 2019. The new facility includes research and classroom space for chemical, electrical, computer, biomedical, mechanical, industrial and systems, and civil and environmental engineering in a collaborative environment, as well as general University classrooms.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Economic Factors that Will Affect the Future - Continued

- The Rhode Island legislature approved \$1 million for an initial phase of improvements for the Fine Arts Center in August 2017, an additional \$11 million in June 2018, and \$2.5 million in June 2019 for a total of \$14.5 million. Phase 1a of the Fine Arts Center rehabilitation includes the removal of the failing exterior stucco, underground work, new unit masonry exterior, roof repair and replacement, and replacement of the heating, ventilation and air conditioning system. Completion of Phase 1a is expected in Fall 2019.
- Construction started in March 2018 on a new \$90 million, 500 bed, 203,000 square foot apartment-style student residence hall. The project is financed by the University's Department of Housing and Residential Life and general revenue bonds. This building is expected to be completed by late fall 2019 and occupied beginning January 2020. The residence hall, named Brookside Apartments, will primarily feature apartment suites of six and four single-occupancy bedrooms. Each suite will be furnished and will have a full kitchen with two bathrooms. Brookside was designed for upper class students to encourage connection, facilitate learning in small comfortable study areas, and help students learn life skills.
- Supported by a combination of a \$2.2 million grant from the Rhode Island Department of Environmental Management and University funding, the William C. O'Neill Bike Path will be connected to the Kingston Campus through the Villages of Peace Dale, Wakefield to Narragansett Beach. The bike path connector is a key element in the University's Campus Transportation Master Plan, which calls for enhanced pedestrian and improved bicycle access on campus. The extension is expected to be completed December 2019.

(a Component Unit of the State of Rhode Island and Providence Plantations)

Management's Discussion and Analysis (Unaudited) - Continued

June 30, 2019

Economic Factors that Will Affect the Future – Continued

- A \$4.1 million project to install artificial turf, lights and upgrades at Meade Stadium, home of the URI Rams football, was nearing completion in Fall 2019. Alumni and friends of the University donated \$3 million of the total project cost. The Meade Stadium upgrades are intended to accelerate the growth of the football program and expand the facility's use. The new surface and lights will provide a durable field with increased options for television broadcasts, night games, and a variety of University and community events, including club and intramural sports. The first home football game under the new surface and new lights occurred on September 7, 2019.
- In July 2018, the National Science Foundation selected the East Coast Oceanographic Consortium, led by the University of Rhode Island, to operate a new \$125 million oceanography research ship named the R/V Resolution. The R/V Resolution will support such scientific studies as the tracking of ocean currents and fish migration, seafloor surveys in earthquake-prone regions of the world, conservation of marine mammals and the foodweb dynamics in the deep ocean. The new ship is expected to be launched in 2022.

Fiscal Planning

The University will continue to ensure that expenses are less than or equal to available resources. Approved strategic initiatives are reflected in the budget and have been and will continue to be funded by student enrollment, retention and tuition and fee resources. IPEDS data continues to show the University as one of the most cost efficient institutions of higher education in the country.

Requests for Information

This financial report is designed to provide a general overview of the University's finances for all those with an interest in the University's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to: Office of the Vice President for Administration and Finance, University of Rhode Island, Carlotti Administration Building, Room 108, 75 Lower College Road, Kingston, RI 02881.

UNIVERSITY OF RHODE ISLAND (a Component Unit of the State of Rhode Island and Providence Plantations)

Notes to the Financial Statements

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies

Organization

The University of Rhode Island (the "University") is a State Land-Sea-and-Urban-Grant University. Chartered in 1951, the University offers undergraduate and graduate degree programs of study and also confers doctoral degrees. The University has three campuses throughout Rhode Island in addition to the main campus located in Kingston. The University is accredited by the New England Commission of Higher Education. In addition, certain courses and programs of study have been approved by national accrediting agencies. The University is supported by the State of Rhode Island (the "State") and is part of the State's system of public higher education.

The University, a component unit of the State of Rhode Island and Providence Plantations, is governed by the Rhode Island Board of Education (the "BOE") (successor to the Board of Governors for Higher Education effective January 1, 2013), a body politic and corporate established under Chapter 97 of Title 16 of the General Laws of Rhode Island. The BOE consists of public members appointed by the Governor.

The Rhode Island Office of Postsecondary Commissioner, which operates under the direction of the Commissioner of Postsecondary Education, is the administrative and research arm of the BOE. The BOE is not a department of state government but an independent public corporation vested with the responsibility of providing oversight for the system of public education in Rhode Island. This public higher education system consists of three entities: the University, Rhode Island College ("RIC"), and the Community College of Rhode Island ("CCRI"). Articulation agreements exist between the schools for student transfers within the system.

The Rhode Island General Assembly established the BOE effective January 1, 2013, to oversee the elementary, secondary, and postsecondary education for the state. In June 2014, the Rhode Island General Assembly approved the reorganization of the entire Rhode Island system of public education.

UNIVERSITY OF RHODE ISLAND (a Component Unit of the State of Rhode Island and Providence Plantations)

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Organization - continued

The legislation enlarged the BOE to seventeen (17) members in order for the BOE to populate two councils: Council for Elementary and Secondary Education and the Council for Postsecondary Education (the "Councils"). Each of the Councils will be responsible for the significant portion of the governance and regulation per RIGL Sections 16-60-1 and 16-60-4 for Elementary/Secondary and per RIGL Sections 16-59-1 and 16-59-4 for Postsecondary.

The mission of the BOE is to provide long-range planning and coordination and evaluation of policies and programs for the public education systems of the State and specifically:

- To develop and adopt educational, financial, and operational goals for the education systems of the State that represent achievable benchmarks for 10-year and 20-year time frames to be implemented by the Councils and the commissioners.
- To ensure that the education systems of the State are aligned with the projected opportunities in workforce development and economic development and that the education systems are preparing students to participate in the future workforce of Rhode Island.
- To coordinate programs and courses of study and promote collaboration between and among pre-kindergarten through higher education institutions and agencies.
- To present strategic budget and finance recommendations to the council on elementary and secondary education and the council on postsecondary education that are aligned with the long-range goals adopted by the board.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Subsequent Event

Effective February 1, 2020, the University of Rhode Island will no longer be governed by the Rhode Island Council on Postsecondary Education but will be governed by a Board of Trustees consisting of 17 members appointed by the governor with the advice and consent of the Rhode Island Senate. The board will be dedicated solely to the University and will exercise similar powers and authority as was exercised by the council on postsecondary education including oversight of employment and the University's property, purchases, and procurement. The University president will report to the Board of Trustees.

The Rhode Island Council on Postsecondary Education will continue to oversee Rhode Island College and the Community College of Rhode Island.

Basis of Presentation

The accompanying financial statements have been prepared using the economic resources measurement focus and the accrual basis of accounting in accordance with U.S. generally accepted accounting principles as prescribed by the Governmental Accounting Standards Board ("GASB"). Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenues as soon as all eligibility requirements have been met. The University has determined that it functions as a Business-Type Activity, as defined by GASB. The effect of interfund activity has been eliminated from these financial statements.

The University's policies for defining operating activities in the statement of revenues and expenses and change in net position are those that generally result from exchange transactions such as the payment received for services and payment made for the purchase of goods and services. Certain other transactions are reported as nonoperating activities. These non-operating activities include the University's operating and capital appropriations from the State, net investment income, gifts, and interest expense.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Basis of Presentation - continued

The accompanying statements of revenues and expenses, and changes in net position demonstrate the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable within a specific function. Program revenues primarily include charges to students or others who enroll or directly benefit from services that are provided by a particular function. Items not meeting the definition of program revenues are instead reported as general revenue.

Component Units

The University of Rhode Island Foundation, Inc. (the "Foundation"), the Alumni Association of the University of Rhode Island (the "Alumni Association"), and the University of Rhode Island Research Foundation, Inc. (the "Research Foundation") are legally separate tax-exempt component units of the University.

The Foundation acts primarily as a fundraising organization to supplement the resources that are available to the University in support of its programs. The Alumni Association primarily acts as an organization to foster lifelong and mutually beneficial relationships between the University and its current and future alumni. The boards of the Foundation and the Alumni Association are self-perpetuating and primarily consist of graduates and friends of the University. Although the University does not control the timing or the amount of receipts from the Foundation and the Alumni Association, the majority of resources received or held by the Foundation and the Alumni Association are these resources held by the Foundation and the Alumni Association and the Alumni Association and the Alumni Association are these resources held by the Foundation and the Alumni Association are considered component units of the University and are discretely presented in the University's financial statements.

The Alumni Association merged with the Foundation subsequent to the period ending June 30, 2019. The boards of both entities approved the merger unanimously on June 5, 2019 and June 7, 2019, respectively, and these votes were later ratified by University Alumni and Foundation Trustees prior to the effective date of July 1, 2019. The Foundation is the surviving entity as part of the merger but has changed its name to "The University of Rhode Island Foundation & Alumni Engagement" to better reflect the combined activities of the new organization.

Note 1 - Summary of Significant Accounting Policies - Continued

Component Units - continued

The Research Foundation's mission is to promote industry and University collaboration and new technology ventures for economic growth and job creation. The Research Foundation's unique private, nonprofit status allows it to support a broad range of technology transfer activities, including licensing, startup company formation, equity investments, and intellectual property protection. The Research Foundation is affiliated with the University by common management; however, each organization has its own independent board of trustees/directors. The Research Foundation obtains significant managerial and financial support from the University, including the salaries for the University Associate Vice President for Intellectual Property and Economic Development, who also serves as the Executive Director of the Research Foundation, other support staff, and the provision of operational cost. Because of this relationship, the Research Foundation is considered a component unit of the University and is discretely presented in the University's financial statements. The beginning net position of the Research Foundation has been restated in the amount of \$35,979.

During the year ended June 30, 2019, the Foundation distributed \$17,326,807 to the University for both restricted and unrestricted purposes.

During the year ended June 30, 2019, the Alumni Association distributed \$1,272,796 to the University for Scholarships and Athletic Club expenses.

As of June 30, 2019, the Component Units have a liability to the University of \$3,604,381, which is reflected in accounts payable and accrued liabilities.

The University has a fundraising agreement with the Foundation and paid \$6,991,500. The University has a support agreement with the Research Foundation and paid \$339,171.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Net Position

Resources are classified for accounting purposes into the following three net position categories:

Net Investment in Capital Assets: Capital assets, net of accumulated depreciation, accounts payable, accrued expenses, and of outstanding principal balances of debt attributable to the acquisition, construction, repair, or improvement of those assets.

Restricted – **Expendable:** Net position whose use is subject to externally imposed conditions that can be fulfilled by the actions of the University or by the passage of time.

Unrestricted: All other categories of net position. Unrestricted net position may be designated by the University.

The University has adopted a policy of generally utilizing restricted – expendable funds, when available, prior to unrestricted funds.

Cash and Equivalents

Cash and equivalents consist entirely of highly liquid financial instruments with an original maturity date of three months or less.

Allowance for Doubtful Accounts

Accounts receivable are periodically evaluated for collectability based on past history with students. Provisions for losses on receivables are determined on the basis of loss experience, known and inherent risks in the receivables portfolio, the estimated value of underlying collateral, and current economic conditions.

Inventories

Inventories are stated at the lower of cost (first-in, first-out, and retail inventory method) or market, and consist primarily of bookstore, dining, health, and residential life services items. Inventory for the year ended June 30, 2019 totaled \$3,192,907.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Capital Assets

Real estate assets, including improvements, are generally stated at cost. Furnishings and equipment are stated at cost at date of acquisition or, in the case of gifts, at fair value at date of donation. In accordance with the BOE's capitalization policy, all land is capitalized, regardless of value. Vehicles, equipment, computer software for internal use, and works of art and historical treasures with a unit cost of \$5,000 or more are capitalized. Building, leasehold, and infrastructure improvements with a unit cost of \$50,000 or more are capitalized during the construction period and then depreciated to capital assets are capitalized during the construction period and then depreciated over the lives of the assets. University capital assets, with the exception of land and construction in progress are depreciated on a straight-line basis over their estimated useful lives, which range from 5 to 50 years. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Compensated Absences and Salary Reduction Plan

University employees are granted vacation and sick leave in varying amounts. In the event of termination, an employee is paid for those accumulated vacation and sick days allowable in accordance with the applicable union contract or, in the case of non-union personnel, according to State or University policy.

Amounts of vested and accumulated vacation and sick leave are reported as accrued compensation and benefits. Amounts are determined based upon the compensation rates in effect as of the statement of net position date.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Employees' Retirement System ("ERS") and the additions to/deductions from ERS' fiduciary net position have been determined on the same basis as they are reported by ERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Postemployment Benefits

For purposes of measuring the net postemployment benefits other than pension obligations ("OPEB") liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the State Employees' OPEB Cost-Sharing Plan ("SEP") and the Board of Education Cost-Sharing OPEB Plan ("BOEP") (collectively referred to as the "Plans") and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by the Plans. For this purpose, the Plans recognize benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Health Insurance

The State offers various state paid health plan to each of its participating agencies. The premiums for these plans are divided among the agencies based upon the number of eligible employees. All employees share in healthcare costs. Employee contributions ranged from 15% to 25% of healthcare premiumsfor non-classified and classified staff. Part-time employee contributions range from20% to 35% of health care premiums. The costs are automatically deducted through the payroll system on a biweekly basis. The University pays the balance of the healthcare costs. Expenses incurred by the University for the 2019 healthcare premiums amounted to \$42,070,954. Employee contributions for the 2019 fiscal year were \$7,722,260.

Assessed Fringe Benefit Administrative Fund

In July 2000, the State established the Assessed Fringe Benefit Administrative Fund. This fund is used to make all payments relating to workers' compensation charges, unemployment compensation payments, and payments to employees for unused vacation and sick leave at the time of retirement or termination from State service. The State funds this account by assessing a charge based on biweekly payrolls of all State agencies. The weighted average fringe benefit assessment rates for 2019 were 4.42% for non-faculty and 3.83% for faculty. The assessed fringe benefit cost for the University was \$8,001,277 for fiscal 2019.

Note 1 - Summary of Significant Accounting Policies - Continued

Funds Held for Others

The University holds funds for student and other organizations affiliated with the University. These funds are pooled with the University's funds, and net returns are allocated to the University organizations' asset balances.

Student Deposits and Unearned Revenue

Student deposits and advance payments received for tuition and fees for the following academic year are recorded as unearned revenue in the current year and as earned revenue in the following year.

Student Fees

Student tuition, dining, residence, health, and other fees are presented net of scholarships and fellowships applied to students' accounts. Certain other scholarship amounts are paid directly to, or refunded to, the student and are generally reflected as expenses.

Tax Status

The University is a component unit of the State of Rhode Island and Providence Plantations and is therefore generally exempt from income taxes under Section 115 of the Internal Revenue Code.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions about future events. These estimates and assumptions affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, as well as the reported amounts of revenues and expenses during the reporting period. Management evaluates the estimates and assumptions on an ongoing basis using historical experience and other factors that management believes to be reasonable under the circumstances. Adjustments to estimates and assumptions are made as facts and circumstances require. As future events and their effects cannot be determined with certainty, actual results may differ from the estimates used in preparing the accompanying financial statements. Significant estimates and assumptions are required as part of estimating an allowance for doubtful accounts, depreciation, and determining the net pension liability and the net OPEB liability.

Note 1 - Summary of Significant Accounting Policies - Continued

Risk Management

The University is exposed to various risks of loss related to general liability, property and casualty, workers' compensation, unemployment, and employee health insurance claims.

The University is insured for general liability with policy limits of \$1 million per claim and \$3 million in the aggregate with a \$25,000 deductible and Excess Liability Coverage with limits of \$25 million. Coverage under the General Liability Policy extends to faculty, staff, students, and volunteers acting within the scope of their duties on behalf of the University. Employed healthcare providers are covered under an institutional medical malpractice policy, excluding physicians who have separate coverage. This policy does not apply to actions relating to federal/civil rights, eminent domain, and breach of contract. Such claims are covered under the Educator's Legal Liability policy which provides \$10 million of coverage to directors and officers and covers claims of discrimination, wrongful termination, and failure to grant tenure.

Crime coverage for University employees is carried with a limit of \$25 million and a deductible of \$75,000, except for employee dishonesty that has a \$150,000 deductible. The University also maintains an excess liability insurance policy with a limit of \$25 million.

Buildings and contents are insured against fire, theft, and natural disaster to the extent that losses exceed \$100,000 per incident and do not exceed \$200 million. A separate inland marine policy insures specifically listed property items such as computer equipment, valuable papers, fine arts, contractors' equipment, and miscellaneous property at various limits of insurance and deductibles. The University also maintains Hull, Property & Indemnity coverage on a specific schedule of watercraft. This policy has a limit of \$15 million. The hull limits vary by vessel with various deductibles. A separate policy insures the University's 184-foot research vessel. The amount of settlements has not exceeded insurance coverage in the years ended June 30, 2017, 2018, or 2019.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 1 - Summary of Significant Accounting Policies - Continued

Risk Management - continued

All vehicles are owned by the State, which insures them for liability through an outside carrier. The policy is a loss retrospective program where premiums can be adjusted for claims incurred. Worker's compensation, unemployment, and employee health and life insurance claims are self-insured and managed by the State.

New Governmental Accounting Pronouncements

GASB Statement 84, *Fiduciary Activities* is effective for periods beginning after December 15, 2018. The objective of this Statement is to establish criteria for identifying fiduciary activities. Activity meeting the established criteria would then be presented in a statement of fiduciary net position and a statement of changes in fiduciary net position. Pension and other employee-benefit trust funds, investment trust funds, private-purpose trust funds and custodial funds would be reported, as applicable, according to this Statement. Information of component units of a primary government would be combined and shown in the aggregate with the fiduciary funds of the primary government. Under this Statement, a liability could be recognized to the beneficiaries in a fiduciary fund if the government has been compelled to disburse fiduciary resources. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 87 – *Leases* is effective for periods beginning after December 15, 2019. Implementation of this standard will require lessees to recognize on their statement of net position the rights and obligations results from leases categorized as operating leases as assets, liabilities, or deferred inflows / outflows of resources. It provides for an election on leases with terms of less than twelve months to be excluded from this Standard. Management has not completed its review of the requirements of this standard and its applicability.

Notes to the Financial Statements - Continued

Note 1 - Summary of Significant Accounting Policies - Continued

New Governmental Accounting Pronouncements - continued

GASB Statement 89 – Accounting for Interest Costs Incurred before the End of a Construction Period is effective for reporting periods beginning after December 15, 2019. The objectives of this Statement are (1) to enhance the relevance and comparability of information about capital assets and the cost of borrowing for a reporting period and (2) to simplify accounting for interest cost incurred before the end of a construction period. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 90 – *Majority Equity Interests*, an amendment of GASB Statements 14 and 61 is effective for reporting periods beginning after December 15, 2018. The objective of this Statement is to improve the consistency of reporting a government's majority equity interest in a legally separate organization. A majority equity interest should be recognized using the equity method if the government's holding of the equity interest represents an investment. Management has not completed its review of the requirements of this standard and its applicability.

GASB Statement 91 – *Conduit Debt Obligations* is effective for reporting periods beginning after December 15, 2020. The objective of this Statement is to improve the consistency of reporting conduit debt. This Statement requires government entities that issue conduit debt, but are not the obligor, not to recognize the liability unless it is more likely than not that the government issuer will service the debt. Management has not completed its review of the requirements of this standard and its applicability.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 2 - Cash, Equivalents, and Investments

Cash and Equivalents

The University's policy is in accordance with Chapter 35-10.1 of the Rhode Island General Laws dealing with the Public Finance, which states that any depository institution holding public deposits shall insure or pledge eligible collateral equal to one hundred percent (100%) with any time deposit with maturities greater than sixty (60) days. If any depository institution does not meet its minimum capital standards as prescribed by its federal regulator, they shall insure or pledge eligible collateral equal to one hundred percent (100%) of all public deposits. None of the University's cash deposits were required to be collateralized by law since there are no time deposits that exceed 60 days.

The University does not have a policy for custodial credit risk associated with deposits.

At June 30, 2019, the carrying amount of the University's cash deposits was \$104,427,041, and the bank balance was \$107,111,901. Deposits are exposed to custodial credit risk if they are not covered by depository insurance, and the deposits are:

- a) Uncollateralized,
- b) Collateralized with securities held by the pledging financial institution, or
- c) Collateralized with securities held by the pledging financial institution's trust department or agent but not in the depositor-government's name.

Of the bank balance, \$85,251,882 was covered by federal depository insurance ("FDIC"), and \$21,821,766 was collateralized with securities held by the pledging financial institution in the University's name as of June 30, 2019. The remaining amount, \$38,253 was uninsured and uncollateralized. The insured balance reflects FDIC insurance and guarantee programs in effect during 2019.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 2 - Cash, Equivalents, and Investments - Continued

Cash and Equivalents - continued

At June 30, 2019, the University had investments (cash equivalents) consisting of 337,589,788 in the Ocean State Investment Pool Trust ("OSIP"), an investment pool established by the State General Treasurer. The University's investment accounted for 8.7% of the total investment in OSIP at June 30, 2019. Agencies, authorities, commissions, boards, municipalities, political subdivisions, and other public units of the State may invest in OSIP. OSIP has met the criteria outlined in GASB Statement No. 79 – *Certain External Investment Pools and Pool Participants* to permit election to reports its investments at amortized cost which approximates fair value. The OSIP is not rated and the weighted average maturity of investments held in the pool, by policy, is not to exceed 60 days. OSIP transacts with its participants at a stable net asset value ("NAV") per share. Investments reported at the NAV are not subject to the leveling categorization. There are no participant withdrawal limitations. OSIP issues a publicly available financial report that can be obtained by writing to the Office of the General Treasurer, Finance Department, 50 Service Avenue – 2nd Floor, Warwick, RI 02886.

Funds on Deposit with Bond Trustee

The deposit with bond trustee is invested in money market funds with First American Treasury Obligations Fund. These funds are uninsured but invest exclusively in short-term U.S. Treasury obligations including repurchase agreements secured by U.S. Treasury obligations. As of June 30, 2019, the First American Treasury Obligations Fund had a rating of A+ by Standard and Poor's and A1 by Moody's.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 4 - Loans Receivable

The University participates in the Federal Perkins Loan, Nursing Loan, and Health Profession Loan Programs. These programs are funded through a combination of federal and institutional resources. The portion of these programs that has been funded with federal funds is ultimately refundable to the U.S. Government upon the termination of the University's participation in the programs.

Loans receivable include the following at June 30, 2019:

Perkins loans	\$ 6,049,270
Nursing loans	1,669,910
Health profession loans	1,996,885
Other	768,832
	10,484,897
Less: allowance for doubtful accounts	(748,854)
	\$ 9,736,043

The Federal Perkins Loan Program Extension Act of 2015 (the "Extension Act"), enacted on December 18, 2015, extended the Perkins Loan Program through September 30, 2017. The Extension Act states that new Perkins Loans cannot be disbursed to students after September 30, 2017. Students that received a fall semester Perkins loan disbursement before October 1, 2017 were eligible to receive a spring semester Perkins loan disbursement. No further extensions were granted for the program as of the date of issuance of these financial statements.

Note 6 - Long-Term Liabilities - Continued

Bonds Payable - continued

The bonds issued by the Rhode Island Health and Education Building Corporation (the "Corporation") are special limited obligations of the BOE acting on behalf of the University. The refunding and general and educational bonds are secured by all available revenues of the BOE derived by the University and State appropriations for the University. The auxiliary enterprise revenue bonds are secured by all auxiliary enterprise revenue of the University.

On November 14, 2008, the Corporation issued the University of Rhode Island Auxiliary Enterprise Revenue Issue Series 2008 B, par amount of \$3,830,000 to pay expenses relating to the 2004 B swap termination. The refunding resulted in a difference between the reacquisition price and the net carrying amount of the old debt of \$1,105,000. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. There was an economic gain (difference between the present value of the old and new debt service payments) of approximately \$2.6 million. Payment on this bond will be made September 2024.

On June 18, 2009, the Corporation issued the University of Rhode Island Educational and General Revenue Issue, Series 2009 A with a par amount of \$10,315,000. The proceeds of the Series 2009 A Bonds were used to finance site and utility infrastructure relating to the "North District" of the Kingston Campus. The Corporation also issued the University of Rhode Island Auxiliary Enterprise Revenue Issue. Series 2009 B with a par amount of \$18,205,000. The proceeds of the Series 2009 B bonds were used to finance fire protection and life safety improvements.

On February 17, 2010, the Corporation issued the University of Rhode Island Educational and General Revenue Issue, Series 2010 A with a par amount of \$13,725,000. The proceeds of the Series 2010 A Bonds were used to repave and reconstruct major parking facilities, internal roadways, and walkways across three of its four campuses.

Note 6 - Long-Term Liabilities - Continued

Bonds Payable - continued

On May 27, 2010, the Corporation issued the University of Rhode Island Auxiliary Enterprise Revenue Issue, Series 2010 B with a par amount of \$42,695,000. The proceeds of the Series 2010 B Bond were used for the design, construction, equipping and furnishing of a new multi-story residence hall and demolition of the present Terrace Apartments.

On June 18, 2013, the Corporation issued the Higher Education Facility Revenue Bonds, University of Rhode Island Educational and General Revenue Refunding Issue, Series 2013 A with a par amount of \$6,195,000. The proceeds of the Series 2013 A Bond were used to refund all Higher Education Facility Revenue Bonds, University of Rhode Island, Series 1997, and to refund all University of Rhode Island Educational and General Revenue, Series 2002 bonds. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. The refunding reduced the University's total debt service by \$994,958 and resulted in an economic gain (difference between the present value of the old and new debt service payments) of \$902,315.

On June 18, 2013, the Corporation issued the Higher Education Facility Revenue Bonds, University of Rhode Island Educational and General Revenue Refunding Issue, Series 2013 B with a par amount of \$5,464,231. The proceeds of the Series 2013 B Bond were used to refund all Higher Education Facility Revenue Bonds, University of Rhode Island, Series 2003 C bonds. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. The refunding reduced the University's total debt service by \$785,119 and resulted in an economic gain (difference between the present value of the old and new debt service payments) of \$704,998.

Bonds Payable - continued

On June 18, 2013, the Corporation issued the Higher Education Facility Revenue Bonds, University of Rhode Island Auxiliary Enterprise Revenue Refunding Issue, Series 2013 C with a par amount of \$23,695,000. The proceeds of the Series 2013 C Bond were used to advance refund all Higher Education Facility Revenue Bonds, University of Rhode Island, Series 2004 A bonds. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. The refunding reduced the University's total debt service by \$3,403,027 and resulted in an economic gain (difference between the present value of the old and new debt service payments) of \$3,024,046.

On June 18, 2013, the Corporation issued the Higher Education Facility Revenue Bonds, University of Rhode Island Auxiliary Enterprise Revenue Refunding Issue, Series 2013 D with a par amount of \$7,538,244. The proceeds of the Series 2013 D Bond were used to refund all Higher Education Facility Revenue Bonds, University of Rhode Island, Series 2003 B bonds. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. The refunding reduced the University's total debt service by \$1,149,425 and resulted in an economic gain (difference between the present value of the old and new debt service payments) of \$1,033,774.

On September 28, 2016, the Corporation issued the Higher Education Facility Revenue Bonds, University of Rhode Island Educational and General Revenue Refunding Issue, Series 2016 A with a par amount of \$35,155,000. The proceeds of the Series 2016 A Bond were used to finance and refinance the design, construction, renovation, improvement and equipping of certain utility systems and other infrastructure, including wastewater, electrical, telecommunications, natural gas connections and storm water management systems, as well as roadways, walkways, and parking facilities of the University. The University refunded all Higher Education Facility Revenue Bonds, University of Rhode Island, Series 2005 A, B, F, and G bonds. The University entered into the bond refunding with the goal to achieve cost savings primarily through the reduction of interest expense. The refunding reduced the University's total debt service by \$7,282,960 and resulted in an economic gain (difference between the present value of the old and new debt service payments) of \$6,119,777.

Note 6 - Long-Term Liabilities - Continued

Lease Obligations

In 1998 the University entered into an agreement for the construction of a steam generating plant including a twenty-year agreement for the purchase of steam. Under the terms of the agreement, the seller is required to supply the University with 320,000,000 pounds of steam annually and is responsible for certain costs related to operating and maintaining the steam/condensate distribution system. The monthly charges for services under the contract consist of a capacity charge and a variable charge for acceptable steam delivered. For contract years 1 through 20, the capacity charged is fixed at \$108,000 per month. The variable charge for the same period is calculated as the sum of commodity charges for gas and fuel oil consumed at the plant plus gas transportation and delivery charge, including operation and maintenance ("O&M") charge for acceptable steam delivered per thousand pounds. The O&M charge is adjusted for the current consumer price index.

The Rhode Island Economic Development Corporation issued the Rhode Island Economic Development Corporation Revenue Bonds (University of Rhode Island Steam Facility Project) Series 1999 in the amount of \$16,395,000 to fund the construction of the steam plant. The Indenture Agreement covering the bond issue requires the debt service be paid to the University, based on the capacity charge, directly to the Trustee.

The University accounted for the amounts due under the above steam agreement as a capital lease and recorded the steam plant at \$16,395,000. Additionally, the University entered into a \$43,200 lease for equipement in fiscal year 2019 requiring 6 years of payments at \$7,200 a year.

The following schedule summarizes future minimum payments under all non-cancelable leases:

	Principal	Interest	Total	
Years ending June 30:				
2020	277,485	25,625	303,110

Note 7 - Pension

Plan Description

Certain employees of the University participate in a cost-sharing multiple-employer defined benefit pension plan - the Employees' Retirement System plan - administered by the Employees' Retirement System of the State of Rhode Island (the "System"). Under a cost-sharing plan, pension obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing pension benefits through the plan, regardless of the status of the employers' payment of its pension obligation to the plan. The plan provides retirement and disability benefits and death benefits to plan members and beneficiaries.

The System issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org.

Benefit Provisions

The level of benefits provided to participants is established by Chapter 36-10 of the Rhode Island General Laws, which is subject to amendment by the General Assembly. Member benefit provisions vary based on service credits accumulated at dates specified in various amendments to the Rhode Island General Laws outlining minimum retirement age, benefit accrual rates and maximum benefit provisions. In general, members accumulate service credits for each year of service subject to maximum benefit accruals of 80% or 75%. For those hired after June 30, 2012, the benefit accrual rate is 1% per year with a maximum benefit accrual of 40%. Members eligible to retire at September 30, 2009 may retire with 10 years of service at age 60 or after 28 years of service at any age. The retirement eligibility age increases proportionately for other members reflecting years of service and other factors until it aligns with the Social Security Normal Retirement Age, which applies to any member with less than 5 years of service as of July 1, 2012. Members are vested after 5 years of service.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 7 - **Pension - Continued**

Benefit Provisions - continued

The plan provides for survivor's benefits for service connected death and certain lump sum death benefits. Joint and survivor benefit provision options are available to members.

Cost of living adjustments are provided but are currently suspended until the collective plans covering state employees and teachers reach a funded status of 80%. Until the plans reach an 80% funded status, interim cost of living adjustments are provided at four-year intervals.

The plan also provides nonservice-connected disability benefits after five years of service and service-connected disability benefits with no minimum service requirement.

Contributions

The funding policy, as set forth in the Rhode Island General Laws, Section 36-10-2, provides for actuarially determined periodic contributions to the plan. For fiscal 2019, University employees, with less than 20 years of service as of July 1, 2015, were required to contribute 3.75% of their annual covered salary. Employees with more than 20 years of service as of July 1, 2015 were required to contribute 11% of their annual covered salary. The University is required to contribute at an actuarially determined rate; the rate was 26.28% of annual covered payroll for the fiscal year ended June 30, 2019. The University contributed \$9,917,091, \$9,531,977, and \$9,903,769 for the fiscal years ended June 30, 2019, 2018 and 2017, respectively, equal to 100% of the required contributions for each year.

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and</u> <u>Deferred Inflows of Resources</u>

At June 30, 2019, the University reported a liability of \$123,705,037 for its proportionate share of the net pension liability related to its participation in ERS. The net pension liability was measured as of June 30, 2018, the measurement date, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to the June 30, 2018 measurement. The University proportion of the net pension liability was based on its share of contributions to the ERS for fiscal year 2018 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2018, the University proportion was 5.50%.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 7 - **Pension - Continued**

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and</u> <u>Deferred Inflows of Resources - continued</u>

For the year ended June 30, 2019, the University recognized pension expense of \$10,822,167. At June 30, 2019, the University reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Deferred Outflows of Resources

Differences between expected and actual experience	\$	825,576
Changes of assumptions		7,946,685
Net difference between projected and actual investment earnings		1,291,079
Changes in proportion and difference between employer contributions and proportionate share of contributions		1,071,507
Contributions made after the measurement date		9,917,091
Total	\$	21,051,938
Deferred Inflows of Resources		
Differences between expected and actual experience	\$	1,588,223
Changes of assumptions		94,584
Changes in proportion and difference between employer contributions		
and proportionate share of contributions		4,389,163
Total	\$	6,071,970

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 7 - **Pension - Continued**

<u>Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources - continued</u>

Contributions of \$9,917,091 are reported as deferred outflows of resources related to pensions resulting from the University's contributions in fiscal year 2019 subsequent to the measurement date and will be recognized as a reduction of the net pension liability at the June 30, 2019 measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:	
2020	\$ 3,234,956
2021	2,038,627
2022	152,178
2023	(312,903)
2024	(49,981)
	\$ 5,062,877

Actuarial Assumptions

The total pension liability was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.50%
Salary increases	3.25% to 6.25%
Investment rate of return	7.00%

Mortality rates were based on the RP-2014 combined healthy for males with blue collar adjustments, projected with Scale Ultimate MP16 mortality tables and RP-2014 combined healthy mortality tables for females with Scale Ultimate MP16.

The actuarial assumptions used in the June 30, 2017 valuations rolled forward to June 30, 2018 and the calculation of the total pension liability at June 30, 2018 were consistent with the results of an actuarial experience study performed as of June 30, 2016.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 7 - **Pension - Continued**

Actuarial Assumptions - continued

The long-term expected rate of return best-estimate on pension plan investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of pension plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 sources. The June 30, 2018 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table:

Asset Class	Long-Term Target Asset Allocation	Long-Term Expected Arithmetic Real Rate of Return
GROWTH		
Global Equity		
U.S. Equity	20.80%	6.43%
International Developed Equity	14.40%	6.72%
Emerging Markets Equity	4.80%	8.90%
Private Growth		
Private Equity	11.30%	9.08%
Non-Core RE	2.20%	5.03%
Opportunistic Private Credit	1.50%	9.08%
INCOME		
High Yield Infrastructure	1.00%	3.81%
REITS	1.00%	5.03%
Liquid Credit	2.80%	3.81%

Core Real Estate	3.60%	5.03%
Private Infrastructure	2.40%	5.61%
TIPs	1.00%	1.75%
Natural Resources	1.00%	3.81%
Volatility Protection		
IG Fixed Income	11.50%	2.14%
Absolute Return	6.50%	4.00%
Cash	3.00%	0.61%
	100.00%	

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 7 - **Pension - Continued**

Actuarial Assumptions - continued

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount rate

The discount rate used to measure the total pension liability was 7.0 percent. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Net Pension Liability (Asset) to Changes in the Discount Rate

The following presents the net pension liability (asset) calculated using the discount rate of 7.0 percent as well as what the net pension liability (asset) would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate.

1.00 % Decrease (6.0 Discount Rate)		(7.0 Discount Rate)		1.00 % Increase (8.0 Discount Rate)	
\$	154,461,487	\$	123,705,037	\$	100,796,449

Pension Plan Fiduciary Net Position

As noted earlier, ERS issues a publicly available financial report that includes financial statements and required supplementary information for the plans. The report may be obtained at http://www.ersri.org. The report contains detailed information about the pension plan's fiduciary net position.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 8 - Other Post-Employment Benefits

Plan Description

Certain employees of the University participate in one of two OPEB plans: the State Employees' OPEB Cost-Sharing Plan ("SEP") and the Board of Education Cost-Sharing OPEB Plan ("BOEP") (collectively referred to as the "Plans"). The Plans are cost-sharing multiple-employer defined benefit OPEB plans included within the State Employees' and Electing Teachers OPEB System (the "OPEB System").

Under a cost sharing plan, OPEB obligations for employees of all employers are pooled and plan assets are available to pay the benefits of the employees of any participating employer providing OPEB benefits through the plan, regardless of the status of the employers' payment of its OPEB obligation to the plan. The Plans provide health care benefits to plan members.

The OPEB System is administered by the OPEB Board and was authorized, created, and established under Chapter 36-12.1 of the RI General Laws. The OPEB Board was established under Chapter 36-12.1 as an independent board to hold and administer, in trust, the funds of the OPEB System. The four members of the OPEB Board are: the State Controller, the State Budget Officer, the State Personnel Administrator and the General Treasurer, or their designees.

The OPEB System issues a separate publicly available financial reports that includes financial statements and required supplementary information for each plan. The reports may be obtained at http://www.oag.ri.gov/reports.html.

Membership and Benefit Provisions

The Plans within the OPEB System generally provide healthcare coverage to pre-Medicare eligible retirees and health reimbursement account contributions or Medicare supplement coverage for members who are Medicare eligible. Members may purchase coverage for spouses and dependents. Dental and vision coverage may be purchased by these groups with no state subsidy.

Members of the OPEB System must meet the eligibility and services requirements set forth in the RI General Laws or other governing documents. RIGL Sections 16-17.1-1 and 2, 36-10-2, 36-12.1, 36-12-2.2 and 36-12-4 govern the provisions of the OPEB System, and they may be amended in the future by action of the General Assembly.

Note 8 - Other Post-Employment Benefits - Continued

Contributions

SEP

The funding policy, as set forth in the General Laws and which may be amended at any time, provides for actuarially determined periodic contributions to the plans. The University is required to contribute at an actuarially determined rate; the rate was 5.98% of annual covered payroll for the fiscal year ended June 30, 2019. The University contributed \$2,313,183, \$2,312,135 and \$2,405,449 for the fiscal years ended June 30, 2019, 2018 and 2017, respectively, equal to 100% of the required contributions for each year.

Active employees do not make contributions to the plan. Retired member contributions consist of the required retiree share of coverage based on the time of retirement and years of service.

BOEP

The funding policy, as set forth in the General Laws and which may be amended at any time, provides for actuarially determined periodic contributions to the plans. The University is required to contribute at an actuarially determined rate; the rate was 4.36% of covered payroll for the fiscal year ended June 30, 2019. The University contributed \$2,459,611, \$2,396,416, and \$1,636,503 for the fiscal years ended June 30, 2019, 2018 and 2017, respectively, equal to 100% of the required contributions for each year.

Active employees contribute 0.9% of payroll to the plan. Retired employees have varying co-pay percentages ranging from 0% to 50% based on age and years of service at retirement.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 8 - Other Post-Employment Benefits - Continued

<u>OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred</u> <u>Inflows of Resources Related to OPEB</u>

At June 30, 2019, the University reported a liability of \$27,863,116 and \$22,067,270 for its proportionate share of the net OPEB liability related to its participation in the SEP and BOEP, respectively. The net OPEB liability was measured as of June 30, 2018, the measurement date, and the total OPEB liability used to calculate the net OPEB liability was determined for each plan by a separate actuarial valuation as of June 30, 2017, rolled forward to the June 30, 2018 measurement date. The University's proportion of the net OPEB liability was based on its share of contributions to the Plans for fiscal year 2018 relative to the total contributions of all participating employers for that fiscal year. At June 30, 2018, the University's proportion was 5.47% and 43.65% for the SEP and the BOEP, respectively.

For the year ended June 30, 2019, the University recognized OPEB expense of \$2,005,197 and \$1,684,050 for the SEP and the BOEP, respectively. At June 30, 2019, the University reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

	SEP	BOEP	Total
Deferred Outflows of Resources Related to OPEB			
Changes of assumptions	\$ 1,437,148	\$ 1,804,894	\$ 3,242,042
Differences between expected and actual experience	-	151,911	151,911
Changes in proportion and difference between employer contributions			
and proportionate share of contributions	-	851,971	851,971
Contributions subsequent to measurement date	2,313,183	2,459,611	4,772,794
Total	\$ 3,750,331	\$ 5,268,387	\$ 9,018,718
Deferred Inflows of Resources Related to OPEB			
Differences between expected and actual experience	\$ 1,406,064	\$ 2,234,629	\$ 3,640,693
Changes in proportion and difference between employer contributions			
and proportionate share of contributions	714,782	-	714,782
Net difference between projected and actual			
investment earnings	 515,162	653,784	1,168,946
Total	\$ 2,636,008	\$ 2,888,413	\$ 5,524,421

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 8 - Other Post-Employment Benefits - Continued

OPEB Liabilities, OPEB Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to OPEB - continued

Contributions of \$4,772,794 are reported as deferred outflows of resources related to OPEB resulting from the University's contributions in fiscal year 2019 subsequent to the measurement date, and will be recognized as a reduction of the net OPEB liability determined at the June 30, 2019 measurement date. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be recognized in OPEB expense as follows:

Year ended						
June 30:	June 30: SEP		 BOEP		Total	
2020	\$	(253,135)	\$ (112,539)	\$	(365,674)	
2021		(253,135)	(112,539)		(365,674)	
2022		(253,134)	(112,539)		(365,673)	
2023		(166,068)	(3,245)		(169,313)	
2024		(102,577)	78,230		(24,347)	
Thereafter		(170,811)	 182,995		12,184	
	\$	(1,198,860)	\$ (79,637)	\$	(1,278,497)	

Net Deferred Outflows (Inflows) of Resources:

Actuarial Assumptions

The total OPEB liability was determined using the following significant actuarial assumptions:

Inflation	2.75%
Salary Increases	3.00% to 6.00%
Investment Rate of Return	5.00%
Health Care Cost Trend Rate	9.00% in fiscal year 2018 decreasing annually to 3.5% in fiscal year 2031 and later

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 8 - Other Post-Employment Benefits - Continued

Actuarial Assumptions - continued

The long-term expected rate of return best-estimate on the Plans' investments was determined by the actuary using a building-block method. The actuary started by calculating best-estimate future expected real rates of return (expected returns net of OPEB plan investment expense and inflation) for each major asset class, based on a collective summary of capital market expectations from 34 nationally recognized investment consulting firms. The June 30, 2018 expected arithmetic returns over the long-term (20 years) by asset class are summarized in the following table for the Plans:

	Long-Term	
	Target Asset	Expected Real
Asset Class	Allocation	Rate of Return
Domestic Equity	65%	6.25%
Fixed Income	35%	1.39%

These return assumptions are then weighted by the target asset allocation percentage, factoring in correlation effects, to develop the overall long-term expected rate of return best-estimate on an arithmetic basis.

Discount Rate

The discount rate used to measure the total OPEB liability for the Plans was 5.0%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members, if any, will be made at the current contribution rate and that contributions from the employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on the Plans' investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 8 - Other Post-Employment Benefits - Continued

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate

The following presents the net OPEB liability calculated using the discount rate of 5.0% as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower or 1-percentage-point higher than the current rate:

	1 % Decrease (4.0% Discount Rate)		(5.0%	Discount Rate)	1 % Increase (6.0% Discount Rate)	
SEP	\$	32,720,951	\$	27,863,116	\$	23,822,841
BOEP	\$	27,550,692	\$	22,067,270	\$	17,572,781

<u>Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate</u> The following table presents the net OPEB liability calculated using the healthcare cost trend rate of 9.0% and gradually decreasing to an ultimate rate of 3.5%, as well what the employers' net OPEB liability would be if it were calculated using a trend rate that is 1-percentage point lower or 1-percentage point higher than the current rate:

	1 %]	Lower	Baseline		1 % Higher	
SEP	\$	22,964,050	\$	27,863,116	\$	33,975,217
BOEP	\$	16,729,852	\$	22,067,270	\$	28,853,427

OPEB Plan Fiduciary Net Position

The OPEB System issues a separate publicly available financial reports that includes financial statements and required supplementary information for each plan. The reports may be obtained at http://www.oag.ri.gov/reports.html. The report contains detailed information about the OPEB plans' fiduciary net position.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 9 - Other Retirement Plans

State of Rhode Island Employees Retirement System ("ERS") Defined Contribution

Plan Description

Certain employees participating in the defined benefit plan (those with less than 20 years of service as of July 1, 2015), as described in Note 7, also participate in a defined contribution plan of the Employees' Retirement System as authorized by Rhode Island General Law Chapter 36-10.3. The defined contribution plan was established under IRS section 401(a) and is administered by TIAA-CREF. The Retirement Board is the plan administrator and plan trustee. The employees may choose among various investment options available to plan participants. The State Investment Commission is responsible for implementing the investment policy of the plan and selecting the investment options available to members.

Contributions

Certain employees (those with less than 20 years of service as of July 1, 2012) contribute 5% of their annual covered salary and employers contribute at the following percentages of annual covered salary for these employees based on their years of service as of July 1, 2015:

Years of Service	Employer
<u>As of 7/1/2015</u>	Contribution Rate
15 - 20 Years	1.50%
10 - 15 Years	1.25%
0 - 10 Years	1.00%

Employee contributions are immediately vested while employer contributions are vested after three years of contributory service. Contributions required under the plan by both the employee and employer are established by the Rhode Island General Laws, which are subject to amendment by the General Assembly.

The University contributed and recognized as pension expense \$380,126 for the fiscal year ended June 30, 2019, equal to 100% of the required contributions for that year.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 9 - Other Retirement Plans - Continued

<u>State of Rhode Island Employees Retirement System ("ERS") Defined Contribution -</u> <u>continued</u>

Plan Vesting and Contribution Forfeiture Provisions

The total amount contributed by the member, including associated investment gains and losses, shall immediately vest in the member's account and is non-forfeitable. The total amount contributed by the employer, including associated investment gains and losses, vests with the member and is non-forfeitable upon completion of three (3) years of contributory service. Non-vested employer contributions are forfeited upon termination of employment. Such forfeitures can be used by employers to offset future remittances to the plan.

Retirement Benefits

Benefits may be paid to a member after severance from employment, death, plan termination, or upon a deemed severance from employment for participants performing qualified military service. At a minimum, retirement benefits must begin no later than April 1 of the calendar year following the year in which the member attains age $70\frac{1}{2}$ or terminates employment, if later.

The ERS issues a publicly available financial report that includes financial statements and required supplementary information for plans administered by the system. The report may be obtained at http://ersri.org.

Rhode Island Board of Education Alternate Retirement Plan

Plan Description

Certain employees of the University (principally faculty and administrative personnel) are covered by individual annuity contracts under a defined contribution retirement plan, Alternate Retirement Plan, established by the BOE, which is also responsible for amending it. Eligible employees who have reached the age of 30, and who have two (2) years of service are required to participate in either the Teachers' Insurance and Annuity Association ("TIAA"), the Metropolitan Life Insurance Company or the Variable Annuity Life Insurance Company retirement plan. The BOE establishes and amends contribution rates. Eligible employees must contribute at least 5% of their gross biweekly earnings. These contributions may be made on a pre-tax basis.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 9 - Other Retirement Plans - Continued

Rhode Island Board of Education Alternate Retirement Plan - continued

Funding Policy

The University contributes 9% of the employee's gross biweekly earnings. Total expenditures by the University for such 403(b) annuity contracts amounted to \$12,781,513 during 2019. The employee contribution amounted to \$7,100,841, during 2019.

Note 10 - Restricted Net Position

The University is the recipient of funds that are subject to various external constraints upon their use, either as to purpose or time. These funds are composed of the following at June 30, 2019:

Restricted – expendable:	
Student loans	\$ 3,307,085
Capital programs	 3,750
	\$ 3,310,835

Note 11 - Contingencies

Environmental Remediation

Hazardous waste found at a former drum storage site on property owned by the University polluted the ground and water in the area. The University entered into a "Consent Decree" agreement with the United States District Court on behalf of the U.S. Environmental Protection Agency (the "EPA"), the U.S. Justice Department, and the Rhode Island Department of Environmental Management (the "RIDEM") on July 2, 2008 with regards to the West Kingston Town Dump/URI Disposal Area Superfund Site (the "Site"). A cap was placed to cover the Site and parties are now monitoring the ground water over an extended period of time through a system of monitoring wells. The University shares fiscal responsibility with the towns of South Kingstown and Narragansett. The University has accrued a liability of \$854,527 relating to the remediation project, operation and maintenance costs, and site reviews. The related costs for the year ended June 30, 2019 were \$147,000.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 11 - Contingencies - Continued

<u>Legal</u>

On January 15, 2018, a woman filed suit against the University of Rhode Island, the Council for Postsecondary Education, and the Board of Education in the death of her husband, who died as a result of injuries suffered at the hands of a University employee after the employee left work. Discovery is ongoing. The impact of this matter, if any, cannot presently be determined.

<u>Other</u>

In addition to the judgement and suit noted above, various lawsuits are pending or threatened against the University that arose from the ordinary course of operations. In the opinion of management, no other litigation is now pending, or threatened, that would materially affect the University's financial position.

At June 30, 2019, the University is a guarantor of loans to fraternities and sororities in the amount of \$150,000.

The University receives significant financial assistance from federal and state agencies in the form of grants. Expenditures of funds under these programs require compliance with the grant agreements and are subject to audit. Any disallowed expenditures resulting from such audits become a liability of the University. In the opinion of management such adjustments, if any, are not expected to materially affect the financial condition of the University.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 12 - Operating Expenses

The University's operating expenses, as presented on a natural classification basis, are as follows for the year ended June 30, 2019:

Compensation and benefits	\$ 329,882,208
Supplies and services	143,811,721
Depreciation	35,764,995
Scholarships and fellowships	 27,427,442
	\$ 536,886,366

Note 13 - State Appropriation

Direct Appropriations

Pursuant to the Rhode Island General Law Section 16-59-9, the legislative-enacted budget reflects the budget passed by the General Assembly and signed by the Governor as well as any subsequent re-appropriations. The Board reviews and approves the unrestricted and restricted budgets and makes recommendations to the Governor and General Assembly for revisions to the current year's budget and the ensuing year's budget for the entities it oversees. As part of the University's annual budget process for unrestricted and restricted funds, the Board allocates specific amounts in the budget, which are allocated for the following categories: (1) salaries and wages; (2) operating expenditures; and (3) outlays for personnel costs, utilities, repairs, capital and student aid, as well as the overall budget allocation.

State Capital Plan Funds

The Rhode Island Capital Plan Fund ("RICAP") was modeled on a financial technique originating in the State of Delaware. In fiscal year 2019, the State reserved 3.0% of its general revenues to fund a Budget Reserve and Cash Stabilization Fund. Once the fund reaches a maximum threshold (5% of fiscal year financial resources), the balance is transferred to RICAP. RICAP is used for capital expenditures. The technique is a "pay-as-you-go" process that avoids increasing the state's debt burden. Higher education has received allocations through this program since fiscal year 1995.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 13 - State Appropriation - Continued

State Capital Plan Funds - continued

The University's State Capital Plan Allocations are composed of the following for the year ended June 30, 2019:

Asset Protection	\$ 7,647,464
Fine Arts Center	2,814,664
Substation	159,173
Vivaria	236,824
Fire and Safety Protection	 232,884
	\$ 11,091,009

State Contributed Capital

In November 2006, the Rhode Island voters approved the issuance of \$65 million General Obligations Bonds for higher education facilities. The bond provides funding for the construction of the College of Pharmacy Building. During fiscal year 2019, the University spent \$250,000.

In November 2008, the Rhode Island voters approved the issuance of \$61 million General Obligations Bonds for higher education facilities. The bond provides funding for the construction of the Chemistry Building. During fiscal year 2019, the University spent \$14,000.

In November 2014, the Rhode Island voters approved the issuance of \$125 million General Obligations Bonds for higher education facilities. The bond provides funding for the construction of the Engineering Building. During fiscal year 2019, the University spent \$54.3 million.

In November 2016, the Rhode Island voters approved the issuance of \$45 million General Obligations Bonds for higher education facilities. The bond provides \$25 million for the renovations of Bliss Hall and \$20 million for an innovation campus that will support cutting-edge research into products, services and businesses that will build Rhode Island's economy. During fiscal year 2019, the University spent \$14.5 million.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 13 - State Appropriation - Continued

State Contributed Capital - continued

In November 2018, the State funded the 2018 A COP issuance. The issuance resulted in a premium in the amount of \$1.0 million which the State has deemed contributed capital.

The expenditures funded from the proceeds of the above-mentioned general obligation bonds and capitalized as fixed assets during fiscal year 2019 totaled \$70.0 million.

The University's State appropriations are composed of the following for the year ended June 30, 2019:

Direct Appropriations	\$ 80,968,221
State Capital Plan Funds	11,091,009
State Contributed Capital	 70,032,583
	\$ 162,091,813

In accordance with Rhode Island State law, unexpended capital plan appropriations lapse after June 30th of the fiscal year in which appropriated. Such funds may be applied for again in the subsequent fiscal year.

Note 14 - Related Parties

The University of Rhode Island Student Senate (the "Student Senate") is a legally separate tax-exempt entity associated with the University.

The Student Senate accounts for various student organizations and receives the student activity fees collected by the University. The Student Senate also operates the Memorial Union Board which generates revenue from its own activities including Ram Tours and the 193 Degrees Coffee House. The University transferred \$1,517,706 to the Student Senate during the 2019 fiscal year representing student fees collected on the Student Senate's behalf. At June 30, 2019, \$14,682 was due to the Student Senate and no amounts were due from the Student Senate. Revenues of the Student Senate for fiscal year 2019 were \$2,306,364 and expenses totaled \$2,114,731. Net position of the Student Senate at June 30, 2019 totaled \$3,488,780.

Notes to the Financial Statements - Continued

For the Year Ended June 30, 2019

Note 15 - Joint Venture

Municipal joint ventures pool resources to share the costs, risks, and rewards of providing services to their participants, the general public, or others. The University, in coordination with the Towns of South Kingstown and Narragansett, shares in the maintenance costs of the regional waste water system, which was constructed during the late 1970's. Each is responsible for its share of the net capital and administrative costs of the project.

In addition to capital costs, the University is responsible for its proportionate share of the total operating costs of the regional waste water system. Its share of the operating costs is in proportion to its share of the total flow into the common facilities as determined by metering devices and a predetermined percentage of operating costs of certain other facilities. The University's share of operating costs amounted to \$494,258 in 2019. Financial information may be obtained at the Town of South Kingstown, 180 High Street, Wakefield, Rhode Island 02879.

Note 16 - Pass-Through Loans

The University distributed \$83,195,477 during fiscal 2019, for student loans through the U.S. Department of Education federal direct lending program. These distributions and related funding sources are not included as expenses and revenues or as cash disbursements and cash receipts in the accompanying financial statements.

Notes to the Pension Required Supplementary Information (Unaudited)

Pension Schedules

Note 1 - Factors Affecting Trends for Amounts Related to the Net Pension Liability

Measurement Date - June 30, 2018

There were no changes in actuarial methods or assumptions or benefits reflected in the calculation of the net pension liability as of the June 30, 2018 measurement date compared to the June 30, 2017 measurement date. Benefits were also unchanged between these measurement dates.

Measurement Date - June 30, 2017

There were no changes in benefits reflected in the calculation of the net pension liability as of the June 30, 2017 measurement dates compared to the June 30, 2016 measurement date. The following is a listing of actuarial methods or assumptions for the following measurement dates:

Measurement Date	June 30, 2018 and 2017	June 30, 2016
Investment rate of return	7.00%	7.50%
Projected salary increases	3.25% - 6.25%	3.50% - 6.50%
Inflation rate	2.50%	2.75%
Mortality rates - males	Male employees - RP- 2014 Combined Healthy for Males with Blue Collar adjustments, projected with Scale Ultimate MP16	Male employees - 115% of RP-2000 Combined Healthy for Males with White Collar adjustments, projected with Scale AA from 2000
Mortality rates - females	Male employees - RP- 2014 Combined Healthy for Females, projected with Scale Ultimate MP16	Female employees - 95% of RP-2000 Combined Healthy for Females with White Collar adjustments, projected with Scale AA from 2000

Notes to the Pension Required Supplementary Information (Unaudited) - Continued

Pension Schedules

Note 1 - Factors Affecting Trends for Amounts Related to the Net Pension Liability -Continued

Measurement Date - June 30, 2016

There were no changes in actuarial methods or assumptions or benefits reflected in the calculation of the net pension liability as of the June 30, 2016 measurement date compared to the June 30, 2015 measurement date. Benefits were also unchanged between these measurement dates.

Measurement Date - June 30, 2015

There were no changes in actuarial methods or assumptions reflected in the calculation of the net pension liability as of the June 30, 2015 measurement date compared to the June 30, 2014 measurement date.

Benefit changes, which resulted from the settlement of the pension litigation and the subsequent enactment of those settlement provisions by the General Assembly, are reflected in the calculation of the net pension liability at the June 30, 2015 measurement date. Significant benefit changes are summarized below:

- Employees with more than 20 years of service at July 1, 2012 will increase their employee contribution rates to 11% for state employees and participate solely in the defined benefit plan effective July 1, 2015 service credit accruals will increase from 1% to 2% per year.
- Members are eligible to retire upon the attainment of: age 65 with 30 years of service, 64 with 31 years of service, 63 with 32 years of service or 62 with 33 years of service. Members may retire earlier if their RI Retirement Security Act date is earlier or are eligible under a transition rule.
- The COLA formula was adjusted to 50% of the COLA is calculated by taking the previous 5-year average investment return, less the discount rate (5 year return 7.5%, with a max of 4%) and 50% calculated using the previous year's CPI-U (max of 3%) for a total max COLA of 3.5%. The COLA is calculated on the first \$25,855, effective, 01/01/2016, and indexed as of that date as well.
- Other changes included providing interim cost of living increases at four rather than five year intervals, providing a one-time cost of living adjustment of 2% (applied to first \$25,000), two \$500 stipends, and minor adjustments.

See accompanying notes to the required supplemental information.

Notes to the OPEB Required Supplementary Information (Unaudited)

OPEB Schedules

Note 1 - Factors Affecting Trends for Amounts Related to the Net OPEB Liability

The actuarial methods and assumptions used to calculate the net OPEB liability of the participating employers are described in Note 8 to the financial statements. The following information is presented about factors that significantly affect trends in the amounts reported between years.

Measurement Date - June 30, 2018 and 2017

Certain actuarial assumptions for the State Employees' OPEB Cost-Sharing Plan ("SEP") and the Board of Education Cost-Sharing OPEB Plan ("BOEP") (collectively referred to as the "Plans") were updated to match the assumptions used for State Employees in the pension valuation for the Employees' Retirement System of Rhode Island ("ERSRI") and the results of an actuarial experience investigation performed for ERSRI at June 30, 2016. Changes were made to the following assumptions:

- Merit and longevity portion of the salary increase assumption
- Rates of separation from active membership
- Rates of retirement
- Rates of disability
- The rate of wage inflation
- The mortality assumption
- The trend assumption
- Aging factors and health and inflation trends

The excise tax load on pre-65 liabilities was changed from 13.8% to 11.0%. The Patient Protection and Affordable Care Act includes an excise tax on high cost health plans beginning in 2022. The excise tax is 40% of costs above a threshold. The actual actuarial assumptions used in the most recent valuations assume that the Plans will be subject to the excise tax in 2022.

Note 2 - Actuarially Determined Contributions

The annual required contributions for fiscal year 2019 were determined based on the June 30, 2015 valuation of the Plans.

Notes to the Schedule of Expenditures of Federal Awards

Year Ended June 30, 2019

Note 1 - Basis of Presentation

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") includes the federal award activity of University of Rhode Island (the "University") under programs of the Federal Government for the year ended June 30, 2019. The information on this Schedule is prepared in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* ("Uniform Guidance"). Because the Schedule presents only a selected portion of the operations of the University, it is not intended to and does not present the financial position, changes in net position or cash flows of the University.

Note 2 - Summary of Significant Accounting Policies

Expenditures reported on the Schedule are reported on the accrual basis of accounting. Such expenditures are recognized following the cost principles contained in the Uniform Guidance.

Note 3 - Determination of Major Programs

The determination of major Federal financial assistance programs was based on the overall level of expenditures for all Federal programs for the State of Rhode Island, of which the University of Rhode Island is a component Unit. As such, the determination of major programs is made at the State level, where it was determined that none of the University's federal programs were major programs during the State fiscal year ended June 30, 2019.

Note 3 - Indirect Cost Rate

The University has elected not to use the 10-percent de minimis indirect cost rate as allowed under the Uniform Guidance.

Notes to the Schedule of Expenditures of Federal Awards

Year Ended June 30, 2019

Note 4 - Federal Student Loan Programs

University Administered Loan Programs

The federal student loan programs listed subsequently are administered directly by the University and balances and transactions relating to these programs are included in the University's basic financial statements. Loans outstanding at the beginning of the year and loans made during the year are included in the federal expenditures presented in the Schedule. The balance of loans outstanding and administrative costs incurred at June 30, 2019 consists of:

CFDA Number	Program Name		Outstanding Balance at June 30, 2019		Administrative Costs	
84.038	Federal Perkins Loan	\$	6,049,270	\$	-	
93.342	Health Professions Student Loans, Including Primary Care Loans/Loans for Disadvantaged Students	\$	1,996,885	\$	-	
93.364	Nursing Student Loans	\$	1,669,910	\$	-	

Direct Student Loan Program

The University disbursed \$83,195,477 of loans under the Federal Direct Student Loans program, which include Stafford Subsidized and Unsubsidized Loans and Parent Plus Loans. The University is only responsible for the performance of certain administrative duties and, accordingly, there are no significant continuing compliance requirements and these loans are not included in the University's financial statements.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Board of Education of State of Rhode Island and Providence Plantations Providence, Rhode Island

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the University of Rhode Island (the "University"), which comprise the statement of net position as of June 30, 2019, the related statements of revenues and expenses and changes in net position and cash flow for the year then ended, and the related notes to the financial statements, which collectively comprise the University of Rhode Island's basic financial statements and have issued our report thereon dated September 30, 2019. We also performed the audit of the Alumni Association of the University Rhode Island's financial statements, as of and for the year ended June 30, 2019. Our report includes a reference to other auditors who audited the financial statements of the University of Rhode Island Foundation, Inc. and the University's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the University of Rhode Island's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the University's internal control. Accordingly, we do not express an opinion on the effectiveness of the University's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the University of Rhode Island's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
